

Wroclaw won the U13 regular season without defeat

The third tournament and the third gold, that is the excellent balance of basketball players of the WKK Wrocław team in the youngest category U13. They claimed their last triumph on the weekend at the tournament in Ostrów Wielkopolski, where they once again failed to find a winner.

The position of one of the main favorites for the overall victory was confirmed at the weekend by the players WKK Wrocław, who won all the matches. However, the tournament offered a number of balanced matches and the teams in 1st to 5th place played very balanced duels together.

The silver goes to the Czech Republic for the Vlci Žďár nad Sázavou team, which started the tournament on a wild card outside the overall ranking. They decided on the second place by winning a dramatic mutual match with the home team ORLEN Akademia BM Stal, who eventually took the bronze.

The two Czech teams BK NH Ostrava and Sršni Písek finished below the winners' podium, but both of these teams were very capable opponents of the teams that were placed above them.

The boys from ŠBK Handlová went to Slovakia without a win.
