

Lučenec is the winner of the U17 tournament

The final tournament of the regular season in the U17 category took place at the weekend in Česká Třebová, and the victory was taken to Slovakia by the players of AKAPO Lučenec, who, although they lost the first match, did not find a winner after that.

In the opening match, the boys from BK NH Ostrava surprised the players from Lučenec, who scored a valuable and somewhat unexpected clear victory. But this defeat rather lured Lučenec and in the remaining three matches there were three wins. On Saturday, the later winners were able to beat even strong Polish teams, which are above them in the overall table.

And it was the match between these two teams from Poland that concluded the entire tournament and was also a direct fight for second place. In the end, the players UKS SP 27 Katowice were happy with the victory, as they overpowered WKK Wroclaw in a dramatic and balanced match.

BK NH Ostrava finished just below the podium, which managed to beat first team Lučenec, but left defeated in all matches against Polish teams.

Without winning the tournament, the players Slávia Trnava leave for Slovakia.
