

WKK Wroclaw wins the U15 tournament

The third tournament in the U15 category took place in the German city of Potsdam. The tournament was won by the Polish team WKK Wroclaw, which surpassed the other teams in terms of sportsmanship and also pleased with its modest performance.

Although only five teams participated in the tournament, there was no shortage of drama. The quality of the tournament is certainly evidenced by the fact that three teams that participated in the final tournament last year are starting in this tournament. The home club and its volunteers created a pleasant environment for the tournament.

In the first match, the home team Basketball Talents Potsdam challenged the French team Akdemie Grand Est to a duel. The home team entered the match a little cautiously and the French opponent took full advantage of it when they gained a double-digit lead. They gradually increased this lead despite the strong resistance of the home team and thus took the victory by a higher margin. The Czech team Válečníci Děčín immediately showed in the first match that they did not come to Potsdam just for a trip, when they thoroughly destroyed the Polish team SKM Zastal Zielona Góra. The whole match was played in a balanced spirit, Děčín led by five points after the third quarter, but even that was not enough to win. Zastal turned on the high speed in the last quarter and finally defeated Děčín by a margin of eight points. The later winner WKK Wroclaw entered the tournament first with a win over the home team, then "sweated" a little more with the French team, which was an even opponent in the first half.

On Saturday morning, the home team played its best performance of the tournament against Děčín, but it was not enough to win, the Czech team is happy. The last match on Saturday offered a lot of drama. The French team challenged the Polish team Zastal to a duel. After the first quarter, the French team leads by seven points, after the second, the Polish team by twelve points, after the third quarter, the difference is only one point, a game like on a seesaw. In the end, after a great fight, the French team wins.

The French team Akdemie Grand Est had a lot of energy in the last match on Saturday, which the Czech team Válečníci Děčín took full advantage of on Sunday morning. Thanks to a wider rotation and high commitment, the Válečníci gained a valuable victory, which thoroughly mixed up the tournament standings. In the end, the second to fourth place in the tournament had to be decided by the scores from the mutual matches of the three teams. The final result was decided by the closest possible difference of a single point. In the final match of the tournament, Zastal tried to defy fate and mix up the tournament standings. However, WKK had a different opinion and entered the match vigorously in the first quarter and gained a fifteen-point lead. WKK maintained the lead, even slightly increasing it despite Zastal's great effort and emotional behavior, and thus deservedly takes the victory in the tournament.

Final tournament standings:

1. WKK Wroclaw (Poland)
2. Akdemie Grand Est (France)
3. SKM Zastal Zielona Góra (Poland)
4. Válečníci Děčín (Czech Republic)
5. Basketball Talents Potsdam (Germany)
