

AK Orly Wroclaw wins the U14 tournament

The tenth tournament of the U14 category took place after the New Year in Frýdek-Místek. After the New Year celebrations, the Polish team AK Orly Wroclaw had the most energy, scoring more than 100 points against four opponents and only their final opponent Jižní Supi prevented them from doing so.

In the opening match, the Polish team AK Orly Wroclaw did not mess around with the home team Basketpoint Frýdek-Místek at all and awarded them an unpopular hundred. And that also fell in the second match of the day, when the Slovak team BK Inter Bratislava presented the Polish team Imopeksis Wilki Wrocław with a hundred. A little "calm" came only in the match between Jižní Supi team and Lublinianka KUL Basketball team. The Supi still managed to bounce back at a leisurely pace to win by more than twenty-five points. There was no shortage of wild results in the afternoon program and the hundred-point mark was again crossed twice.

On Saturday, there was also a tie, and one of them had to be decided by overtime. The Polish teams Lublinianka and Wilky fought with great vigor, the lead in the match alternated, and after forty minutes the score was even, so overtime had to be decided. The Lublinianka team won by the closest possible margin of just one point. As it turned out later, it was a fight for fifth place, but even that brought great basketball. The day was closed by the home team's fight with Jižní Supi team. Here, too, it was a real mess. The home team probably showed its best performance of the tournament and really troubled the future silver medalist.

On Sunday, Inter defended their victory at a leisurely pace and thus won the bronze medals in the first match of the day. The second match was an imaginary final of the tournament between the Czech team Jižní Supi and the Polish team AK Orly Wroclaw . The Czech team showed a solid performance, being the only one not to receive more than 100 points from the Orly, but it was not enough for a win. They may have also lacked the strength from the difficult evening match with the home team. And that concludes the tournament in a duel with the Polish team Imopeksis Wilki Wrocław . Here it was clear after the first quarter who was the "home" master and only one point was missing from the hundred-point mark.

It is not often in our tournament rankings to mention individual players, but when someone maintains an average of 37.6 points per game in a tournament over five games, it is worth mentioning. So that player was Adam Garaj from BK Inter Bratislava, a truly respectable performance. It must also be said that there were three other scorers in this tournament who averaged more than 20 points per game. The unprecedented cannonade must have certainly entertained the fans and spectators.

Final tournament standings:

1. AK Orly Wroclaw (Poland)
