

WKK Wrocław as the winner of THE FINALS U17

The last final tournament of this season was played by the U17 boys in the Polish city of Ostów Wielkopolski. Since only 5 teams took part in the tournament, the format was adjusted, where it was played as in a classic tournament with a one-on-one system.

The winner of the regular season, the Czech team Sršni Písek, should have been the paper favorite of the entire tournament. However, several of his players received an invitation to the national team on the same date, so the team arrived with the younger boys of the year 2007.

This ensured that more teams would be in contention for the win and the role of favorite fell to the second regular season team, Polish side WKK Wrocław.

Wrocław managed to win the first three matches to secure the final first place ahead of schedule. The last victory against the last Písek, which they grabbed only in the final seconds, gave her the most work.

The second place goes to Slovakia in the hands of BK Lokomotíva Sereď, which was not enough for the winner.

The fight for the third place brought great drama and in the end the bronze went to the home team ORLEN Akademia BM Stal, who pushed the Austrian Vienna DC Timberwolves by a single point difference.

The young boys Sršni Písek left the final without a victory, but with many valuable experiences.
