

Děčín did not find a conqueror in U14 even for the second time

***The players of Děčín turned their second start at the U14 tournament into a second victory and, just like on the home board, they did not lose a single match in Handlová, Slovakia.***

The penultimate tournament of the regular season significantly indicated which 6 teams could participate in the final tournament. However, we still have the last stop in Chomutov, and he can make a decision about some of the advancing players there.

But back to the tournament, which took place in Handlová and which was clearly dominated by Válečníci Děčín, when even this time they did not find a conqueror and with a 100% balance they still lead the table.

Second place goes to Austria's team BBLZ - Reach the Top, who lost to the winner Děčín by only 6 points, and this promises their next dramatic encounter, which is on the program in Chomutov.

The fight for bronze brought a huge drama, when all three teams had the same balance. Sokol Pražský needed to beat BA Nymburk with a difference of at least 15 points in the final game, which he managed to do exactly with two sixes 3 seconds before the end. He pushed his opponent to 4th place. The players SKM Zastal Zielona Góra finished behind the two Czech teams.

The home boys of ŠBK Handlová did not do very well in the tournament, their key player was injured on Saturday and they had an even harder time without him. Without a victory, they took the final 6th place.
