

Opole the winner of the U15 tournament at home

UKS MOS Opole wins the third tournament in the U15 category. The Opole team did not get the win in the tournament for nothing. The home team played balanced matches both with other medalists (BK Inter Bratislava, Válečníci Děčín) and also with the Slovak team BBA Komárno, which ended up in fourth place.

The team from Opole first slowly got up to operating temperature in the first game and won over the team from Komárno by a difference of ten points. In the second game, he came across the warriors from Děčín, who spent the first three quarters with their heads dozing in the bus, which was reflected in the fact that they lost more than twenty points in the score. In the last quarter, the warrior nature showed itself, but in the end it was only enough to reduce the difference to eight points.

Third in the group of medalists, the team BK Inter Bratislava , on Friday easily coped with the teams Mitteldeutsche Basketball Academy a SKF Jura Basket Zabierzów , which they defeated by a difference of more than forty points.

In Saturday's program, the team from Komárno was not going to accept being placed outside the medal positions and did not give the warriors from Děčín even a free meter of board for the entire match, but it was not enough to win. Another match important for unlocking the medal positions closed the Saturday program. It took place between the home team from Opole and BK Inter Bratislava . The home team did not leave anything to chance and maintained a slight lead throughout the game, which eventually amounted to ten points.

Sunday's match solved the mystery of the placement. First, the team from Komárno defeats Mitteldeutsche Basketball Academy and confirms fourth place in the tournament. Subsequently, a battle took place between BK Inter Bratislava a Válečníci Děčín for the silver and bronze medals. Válečníci Děčín, although they finish strongly again in the second half, are not able to win and take the bronze. In the last match of the tournament, the home team defeats the SKF Jura Basket Zabierzów team by more than seventy points at a training pace, confirming their first place in the tournament.

An interesting feature of the tournament is that three players with an average of 20.8 points per game won the imaginary crown of the top scorers.
