

Válečnice Děčín wins the first ever U13 girls tournament

The first tournament of the U13 category took place in Brandýs nad Labem. This is a historic moment, as it was the first tournament of the girls' category in the CEYBL organization. The best performances were presented by the team Válečnice Děčín, which won gold medals.

The opening match of the tournament was hosted by two Czech teams, namely BC Benešov and Válečnice Děčín. The team from North Bohemia claimed a better start to the tournament and won by almost twenty points. Unfortunately, the second match between the teams AK Orly Wrocław and ChemCats did not take place. The fault was a defect in the Polish team's vehicle. So these two teams will have to wait a while for their debut in the CEYBL tournaments. Tournament life also offers us such situations. In the third match, the last pair of teams enter the tournament. The Czech team Basket Opava 2010 and the Slovak team BK AŠK Slávia Trnava. A very balanced duel, tug-of-war for every ball, quality defense, this match offers. The Slovak team wanted its first win more and won by a difference of ten points. We also find balanced and combative matches in the afternoon program. The most interesting match was probably the one that closed the Friday program between the teams Basket Opava 2010 and ChemCats. At first, Opava took a slight lead. Chemnitz "tightened" their defense in the rest of the match and the game became even. The end of the match was decisive, in which the German team defended a narrow victory by three points.

On Saturday, there was one absolute certainty: the team that won the first quarter would win the entire game. We watched quality battles both in defense and offense, and above all, great enthusiasm for the game. Saturday's battles ended with larger differences in scores, but the game was still entertaining.

On Sunday, the Polish team AK Orly Wrocław will first lose to the Slovak team BK AŠK Slávia Trnava by a higher score difference. Trnava still has no idea that they will hang bronze medals around their necks. However, everything will be decided only in the last match of the tournament. In the second match, the Czech team Válečnice Děčín will relatively easily deal with another Czech team Basket Opava 2010. The team from North Bohemia fully deserved the gold medals, having gone through the tournament without defeat. The tournament will be closed by an important duel between the Czech team BC Benešov and the German team ChemCats in terms of tournament placement. And we are watching a more than worthy end to the tournament. A fighting performance on both sides of the court. The Czech team had more strength after five matches in the tournament and wins silver medals.

Final tournament standings:

1. Válečnice Děčín (Czech Republic)
2. BC Benešov (Czech Republic)
3. BK AŠK Slávia Trnava (Slovakia)
